

In view of the seriousness with which we take our responsibilities for your children's safety when they are in our care we feel it appropriate to bring the following to your attention:

Please be aware that Colchester Swimming Club's duty of care for your children ends at poolside. Children should be dropped off 10 minutes before the training session and proceed immediately to poolside. We advise parents to ensure that a Coach is available to supervise the training session, particularly at times of adverse weather or traffic conditions. We also recommend that parents remain in the spectator area to watch their children and hear announcements. **Parents must be in the building by the time the session ends.**

Neither Colchester Swimming Club, nor Colchester Leisure World staff are responsible for your children in the changing areas, or the rest of the premises. Children who leave poolside because they are unwell must telephone a parent immediately, and wait in the spectator area. We cannot prevent children from leaving the building. Children, who misbehave in the building or changing areas, causing danger to others, may be asked to leave the Club if parents do not supervise them.
